

Lundby
OF SWEDEN

1981/82

Lundby's famous houses

Lundby "Town house" is completely electrified. It has three separate parts; the two-storey dolls house itself, the home extension and the garage section, which all can be bought separately.

Lundby Luxury Villa dolls house is also fully electrified. It has two different sections; the two-storey dolls house and a garage section with a stable, which of course also can be bought separately.

NEW! The Manor 10 room dolls house

The New Manor dolls house is completely electrified. You get the dolls house in knock down form and you can easily put it together — in less than half an hour, thanks to the clever peg and lock system.

The rooms are beautifully decorated in Contemporary, Victorian and Classic designs. And all have elegant wallpapers. Just open the roof to enjoy the fun of four extra attic rooms.

The Manor dolls house has lots of wonderful features including a staircase and bannister, a charming peaked attic window, a lovely simulated brick chimney, a Victorian style front door and windows with shutters.

A beautifully equipped kitchen

A real dream kitchen with room for everything — a sink unit, cooker unit, fridge, dishwasher, shelves and cupboards. You can open the doors and drawers. For the cooker and sink you can purchase bulbs to light them up. You can even set the kitchen table with the new breakfast tray.

A complete programme

Everything in the Lundby programme matches together — dolls houses, furniture, lamps, accessories and decorations, dolls, garden furniture, etc. This gives you unlimited opportunity for furnishing and playing.

You can do a tremendous amount with this bathroom!

There are lovely, large bathrooms in Lundby dolls houses. You can have your bathroom just the way you want it. There is lots of room to fit it out. There is also room for a washing machine and a washing bench.

Dinner is served!

There really is a tremendous choice when it comes to Lundby dining rooms and dining room furniture. Do you prefer something plain and simple for everyday use? Would you like something exclusive for special occasions? Whatever your tastes, Lundby have just what you need.

A good night's rest for the doll family!

Lovely, wide, comfortable beds with pretty bedspreads. There is such a lot to choose from for the parent's bedroom — and for the smaller bedrooms, too. Have a good look at the new elegant bed with the brass bedstead. Imagine snuggling into one yourself. Sweet dreams!

A place for being together

The living room in your Lundby house is without doubt the room that gives you most opportunity to arrange to your own taste. You can furnish it, refurnish it and change the furniture around. You decide! You can make it into a living room for the whole family, an elegant lounge, a music room or a TV room, a place to work or a place to play. Just let your imagination go. LIDO is a new series you put together in as many ways as you like. The LIDO series has five units. You build them together in the way you want. There is a large and a small display cabinet, a large and a small bookcase section and a small section with drawers. Just put them together in the way that you like best.

Outdoor life

Look at the fine play area in front of the dolls house. There are lots of wonderful things for the Lundby garden. Trees and bushes, furniture a greenhouse (in which you can really grow seeds), the Lundby car, a swing, animals too — horses, dogs and cats. Just have fun!
